

Encryption Authorization Platform - Customer Manual

Step 1 : apply for an account

Customers please contact the scorn business application account, please provide a common valid email account (the initial password will be sent to the mailbox), the mobile phone number (the login system will send the verification code), the user name, and the company's full name.

Step 2 : Login platform

The customer opens chrome and accesses the platform Alibaba Cloud address: <https://srp.megvii.com/>. The platform login page is as shown below:

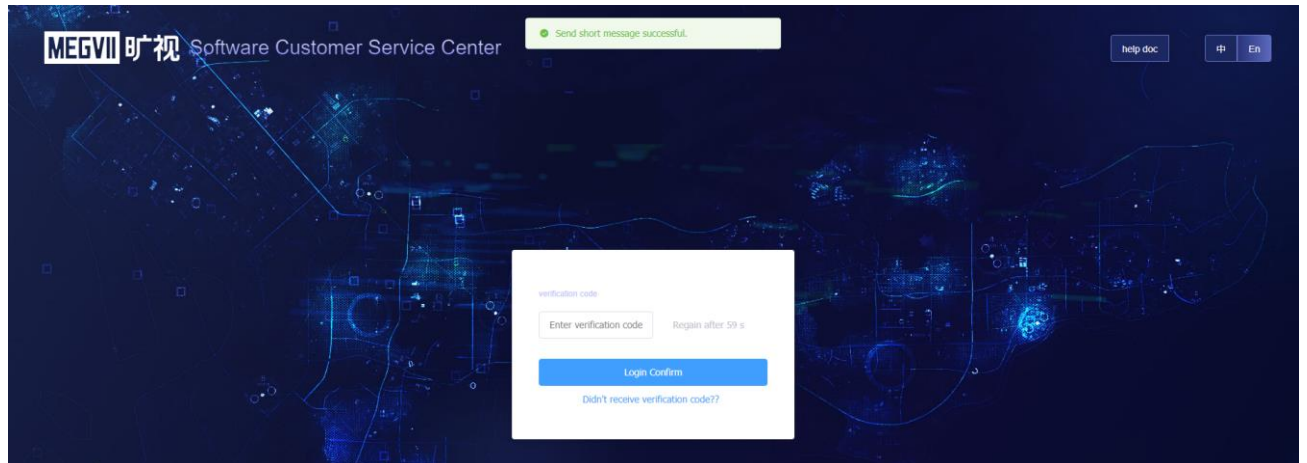

Enter the email account, password (login to view the initial password)

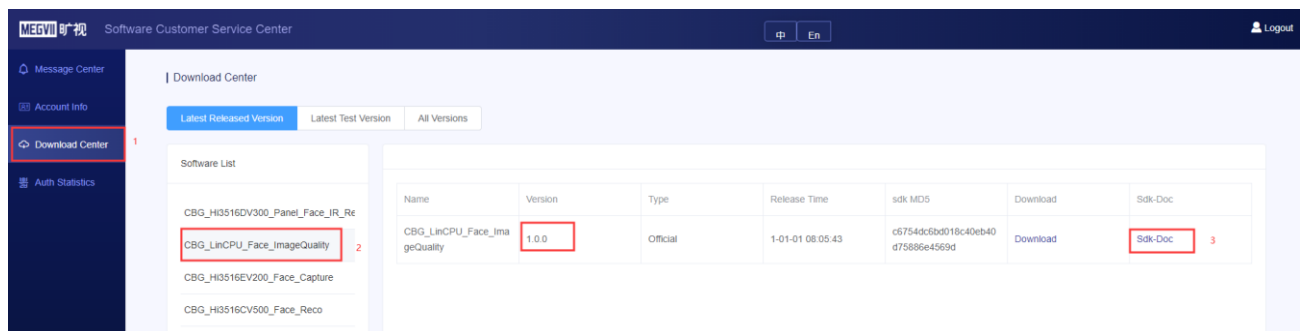

Note: The system creates an account to send mail as shown below. If the inbox does not receive the mail, please go to the trash.

Enter your phone verification code:

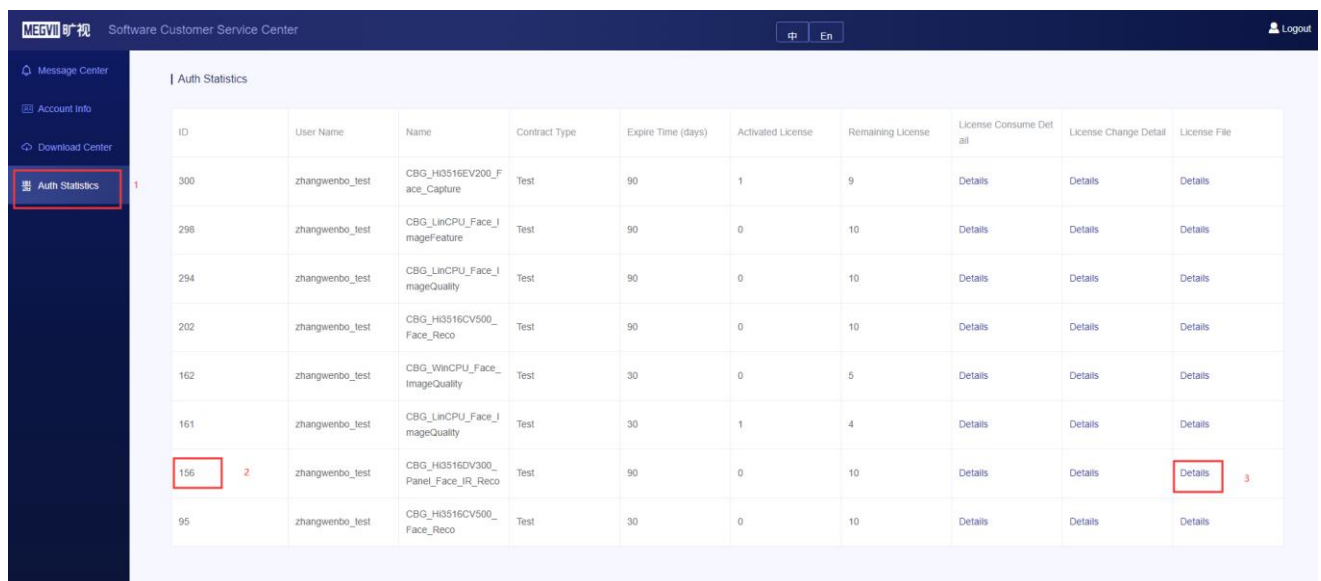

Step 3 : Download the sdk package

Step 4 : Download One-stage Auth / Two-stage Auth file

Find the product you need to download and view the details of the communication certification file.

Download certification file.
